WEEKLY SCRUM

September 7 - September 11, 2020

Monday - September 7th

- LABOR DAY

Tuesday - September 8th

1. *What did you do yesterday?*
 - N/A
2. *What are you doing today?*
 - N/A
3. *Blockers/notes?*
 - N/A

Wednesday - September 9th

1. *What did you do yesterday?*
 - Worked on sets for comp 256
2. *What are you doing today?*
 - Download lesson 4, review lesson 4 content, work on project 1
3. *Blockers/notes?*
 - According to lesson 4, if interviewed at current state, then most likely fail. Reasons being, I need to review interview questions and I don't think I can answer all of them correctly on the spot.

Thursday - September 10th

1. *What did you do yesterday?*
 - Sets for cs-256, scrum, questions, project 1
2. *What are you doing today?*
 - Mainly focus on project 1, research the market to see if there are existing, design logo, think of implementation
3. *Blockers/notes?*
 - Aside from using the canvas api, not sure which language to use for this project

Friday - September 11th

1. *What did you do yesterday?*
 - Researched the market for product idea, designed a logo, and tried to plan for system architecture
2. *What are you doing today?*
 - Finish System Architecture
3. *Blockers/notes?*
 - N/A

WEEKLY QUESTIONS

September 7 - September 11, 2020

Lesson 4: List weakest area, “*Practice makes perfect*”

1. I am not very good at math especially for a computer science student. This is probably only weakest area I never try to improve, but definitely I will try to improve by studying on my own during summer vacation.
2. Another area I think I definitely need practice soon is interview question and solving/coding those questions on the spot. I will use outside resources, like leetcode and ask friends in the industry for help.
